

Confirmation

DIN EN 1906

Issued December 2012

The Company
Franz Schneider Brakel GmbH + Co KG
Nieheimer Straße 38 · 33034 Brakel · Germany

has demonstrated that the product

FSB ASL® lever sets, with 8 mm square spindle, Product group 12

meets the specifications of the German standard DIN EN 1906 issued in December 2012
in accordance with the classification key

4 | 7 | --- | 0 | 1 | 5 | 0 | A

through annual testing carried out by the PIV (Prüfinstitut Velbert – Testing Institute Velbert).
The products bear the register number 29V61.

A fire test carried out by LAPI (Laboratorio Prevenzione Incendi – Fire Prevention Laboratory)
in April 2017, test report number 769.10DC0020/17, has shown that the hardware does not
have a negative impact on the fire performance of the door.

This means that the lever sets comply with the classification key

4 | 7 | --- | B | 1 | 5 | 0 | A
